The Quo-Test A1c system

A global epidemic

"We forecast that the number of people in the USA with diabetes will rise from 24 million people today to 44 million by 2034."

Dr. Elbert Huang, University of Chicago

"We anticipate that the annual cost of taking care of those people will triple over the same period, going from \$113 billion today to \$336 billion."

'Deal of the Year'

Eight rules to help you win investment

1. Scale
2. Demonstrable
3. Defensible
4. Team
5. Plan
6. International
7. Momentum
8. Front

“80% of success is just turning up”.
